Carlo Sinestrari was born in Rome in 1970. He has done his undergraduate studies at the University of Rome "La Sapienza" and has obtained his P.H.D. in Mathematics at the University of Rome "Tor Vergata"in 1997. Since 2001 he is full professor in Mathematical Analysis at the Faculty of Engineering of the University of Rome "Tor Vergata".

He has held seminars in several universities in Italy and abroad, including Pisa, Padova, Heidelberg, FU Berlin, Warwick, Carnegie Mellon, Brown University. He has visited various academic institutions, among which the S.I.S.S.A. at Trieste, Princeton University, Isaac Newton Institute at Cambridge, Max-Planck Institute "Albert Einstein" at Potsdam and the Australian National University at Canberra. He has been an invited speaker in several national and international conferences. He has held advanced courses within schools organized by the ICTP (Trieste), the CRM (Barcelona) and the CIME (Int. Math. Summer Center, Florence).

He has led a research unit within the research programs Cofin 2002, Prin 2005 and Prin 2007 and coordinator of a project Gnampa 2006. He was an organizer of the "Second Summer School in Analysis and Applied Mathematics" (Rome, 2005). He is a member of the PhD Council of his department.

He is author of 27 papers on international journals, of some papers in conference proceedings, of the monographs "Semiconcave functions, Hamilton-Jacobi equations and optimal control" (with P. Cannarsa) and "Mean curvature flow and isoperimetric inequalities" (with M. Ritoré).
