** 2 Ph.D. level positions in Stochastics and Mathematical Finance at TU Berlin starting in October 2019 **

We are filling two PhD. level positions for 5 years (100% TV-L E13 Berlin) with starting date in or after October 2019. As part of the large Berlin group in Stochastics and Mathematical Finance with its numerous research seminar, colloquia, workshops and international conferences, the successful candidates will carry out research on current problems in Mathematical Finance and Stochastic Optimal Control. We thus expect a solid command of Stochastic Analysis and Mathematical Finance and consider knowledge in Stochastic Optimal Control an advantage. The teaching load is 4h/w, that also have to be conducted in German.

The official job ads are to be found at

https://tub.stellenticket.de/de/offers/66052/

and

https://tub.stellenticket.de/de/offers/66054/,

respectively. Interested candidates are requested to apply for both positions. For formal reasons, this requires separate cover letters for each position mentioning the reference numbers II-362/19 and II-363-19, but only one copy of all the remaining documents, most notably the reference letters.

The deadline for applications is July 26, 2019.
