

**\*\* 5 year Postdoc TU Berlin, Probability and Financial Mathematics Group \*\***

Applications are invited for a

Postdoc position

5 years, TV-L E13, 100% (>2300 EUR per month after taxes etc.)

in the group of Prof. Peter Bank at TU Berlin's department of Mathematics.

We are particularly interested in stochastic optimization problems arising in finance and are looking for early career researchers who want to actively contribute to this field of research, for instance by working towards a habilitation.

The teaching load is 4 hours per week during term and includes teaching of exercise classes in the department and the supervision of Bachelor and Master theses.

Please see

<https://tub.stellenticket.de/de/offers/80735>

for the formal details. The "usual documents" mentioned there are meant to include

- a cover letter explaining the applicant's motivation,
- a scientific CV,
- a list of publications and talks,
- a description of future research plans (outlining, when

applicable, the habilitation project),  
- teaching record,  
- at least two, preferably three letters of  
recommendation.

**Deadline for applications is August 10, 2020.**
