

Subject: Postdoc Position, Applied Mathematics, FGV/
EMAp, Brazil

From: Hugo A. de la Cruz <hugo.delacruz@fgv.br>

Date: March 16, 2018

The school of Applied Mathematics (EMAp), of the Getulio Vargas Foundation (FGV) (<http://emap.fgv.br>) is hiring two postdoctoral researchers in Applied Mathematics. We invite potential candidates to apply for a two-year post-doctorate position (possibly renewable for one year) with a monthly fellowship of BRL 10.000,00. The positions are intended for young researchers working on Applied and/or Computational Mathematics.

Candidates must have completed their doctoral degree after March 31, 2014 or are about to complete it. A PhD degree is required by the starting date of the contract.

Applications should be sent to the email: emap@fgv.br until July 15th, 2018;

including: research plan, publication list, curriculum vitae (containing, at least, birth date, institution and date of doctoral degree, thesis title and advisor's name) Candidates must indicate at least 3 names and e-mails from renowned researchers to send letters of recommendation.

The postdoctoral researchers are expected to focus on scientific research, but also to participate in teaching.

The decision will be announced on August 15, 2018.

The selected candidates should start their activities at EMAP between September 2018 and March 2019.

Further inquiries should be addressed to emap@fgv.br
