

Subject: Postdoc Position, Mathematics, North Carolina State Univ

From: Hien Tran <tran@math.ncsu.edu>

Date: February 09, 2016

The Mathematics Department at North Carolina State University invites

applications for one two-year postdoctoral position beginning Fall

2016. The position is renewable for a third year, conditional on

satisfactory progress and availability of funding. We are seeking

exceptionally well-qualified individuals with research interests

compatible with those in the department. Candidates must have obtained

a Ph.D. in mathematics or a closely related field prior to the start

date, and must demonstrate research excellence, strong oral and

written communication skills, and a commitment to effective

teaching. In addition to research, the postdoctoral

researcher will teach two courses per academic year. The Department of Mathematics has strong research programs in both pure and applied mathematics. Many members of the department participate in interdisciplinary programs and research groups on campus and in the broader Research Triangle community. More information about the department can be found at <http://www.math.ncsu.edu>.

To submit your application materials, go to <http://www.mathjobs.org/jobs/ncsu>. Include a vita, at least three letters of recommendation, and a description of current and planned research. Write to math-jobs@math.ncsu.edu for questions concerning this position.

North Carolina State University is an Equal Opportunity and Affirmative Action Employer, and welcomes all persons

without regard
to sexual orientation.

Applications received by March 31, 2016 will be given
priority. However, we will begin considering applications
immediately
and will continue to review applications until the position
is filled.
