

EMC is a global leader in providing technologies on innovation and information management; supports customers to manage, archive, protect and analyze the most important asset, information, in a flexible and trusted way.

EMC is looking for a brilliant young graduate for the Global Services Associate Program (GSAP), a challenging and highly-motivating program that includes a 7-week global training in Boston which will provide you with the technical and professional foundations required to excel in your new job.

Back in Italy, you will be responsible for supporting and providing maintenance of EMC products onsite, at customer locations.

To be a successful candidate you must:

- Have a degree in technical subjects
- Speak fluent English
- Have technical aptitude
- Be driven by passion for technology
- Be willing to learn

GSAP Objectives:

- Prepare you for your role in EMC Global Services
- Accelerate your time to productivity
- Bring your fresh perspective to the business
- Welcome you to a community of fellow global Associates

Please send your CV in English to recruitment_italy@emc.com with "CSAP" in the subject
