

Subject: Postdoc Position, Mathematician or Geophysicist

From: Nicolas Neuss <neuss@math.fau.de>

Date: December 21, 2018

Deadline: 20 January 2019

The Friedrich-Alexander-Universität Erlangen-Nürnberg is looking for a mathematician or geophysicist within the project TAPE "Tapping the Potential of Earth Observation". The project is funded by the University of Erlangen-Nürnberg within its Emerging Field Initiative (EFI). The position is a collaboration between the Institut für Geographie (Remote Sensing & GIS, Prof. Braun) and the Department of Mathematics (Applied Mathematics, Prof. Bansch).

The intended starting date is April 1st, 2019. The employment is

limited to 24 months due to availability of project funds with a possibility of extension depending on successful project completion/prolongation or other third-party funding. The employment is full time with 100% of the regular working load. Depending on qualification and personal requirements this position is grouped into Entgelt-/Bes.Gr. E13.

Details about the position, the necessary qualification, and the application process can be found here:
