

38th Finnish Summer School on Probability and Statistics

[Gli studenti o dottorandi di Tor Vergata possono contattare Lucia Caramellino (caramell@mat.uniroma2.it) per valutare la possibilità di ottenere fondi per vitto ed alloggio]

[Registration](#) to the 38th Finnish Summer School on Probability and Statistics (28.5-1.6.2018 in Lammi Biological Research Station, Finland), is open!

Please check the website <https://fdnss.fi/summer-school/38th-summer-school/>

Courses

[Ivan Nourdin](#) (U Luxembourg): *The Malliavin-Stein approach*

[Dylan Possamaï](#) (Columbia U): *An introduction to backward SDEs and applications in finance and economics*

[Piotr Zwiernik](#) (U Pompeu Fabra): *Latent tree models*

The Finnish Summer School on Probability and Statistics has a long tradition starting from the first summer school in Tuusula 1976. The mission of the summer school is to provide one-week intensive courses on active research topics in probability and statistics, lectured by leading scholars in the field. The school is targeted primarily for doctoral students in probability, statistics, and related areas. Researchers advanced MSc students and fresh postdocs are also encouraged to apply.

The summer schools are currently organized by the Finnish Doctoral Education Network in Stochastics and Statistics (FDNSS). For

enquiries, please contact
