Subject: [World] Assistant prof. position, TU Graz,  
Austria

Open position - Assistant Professor with PhD  
maternity substitution, expected for 1 year

Graz University of Technology

Institute of Discrete Mathematics

Working Group Structure Theory and Stochastics

Starting date: January 1st 2017.

Requirements: PhD or equivalent university degree in  
Mathematics, awarded before the beginning of the  
engagement.

Desired qualifications: scientific work in the fields  
of Stochastic Processes (random walks), Graph  
Theory,

Geometric Group Theory, possibly combining those  
topics;

in particular stochastic and deterministic aggregation

models. Readiness to collaborate in research projects in these areas. Teaching duties of at least 4 hours per week per semester, in particular for Mathematics in the Engineering sciences, in German (!).

**Deadline for applications: November 10, 2016.**

For details regarding position and applications, see <http://www.math.tugraz.at/~woess/position>
