

Subject: Postdoc position, Applied Mathematics,  
ICMAT, CSIC, Spain

From: Ana M Mancho <[a.m.mancho@icmat.es](mailto:a.m.mancho@icmat.es)>

Date: Mon, 20 Nov 2017 10:35:24 +0100

Applications are invited for a postdoctoral position in  
Applied  
Mathematics at ICMAT.

The position is linked to the Office of Naval Research  
project

"Dynamical systems and geophysical flows: new  
perspectives and  
applications" led by Dr Ana M. Mancho. The proposed  
research is

concerned with the development of theoretical and  
computational

techniques in dynamical systems theory to describe  
transport processes

in geophysical flows. The candidate will work in an  
interdisciplinary

environment. An excellent background on differential  
equations,

programming and computational skills are required for

this post.

This post is a fixed term contract for one year since the starting date with a possible extension.

Gross Salary: 2220 euros per month approx.

Those interested should send their CV including list of publications, a letter of motivation and two reference letters to Ana M Mancho:

[a.m.mancho@icmat.es](mailto:a.m.mancho@icmat.es)

Closing date for applications: 15th January 2018

Contact for informal enquiries: Dr. Ana M. Mancho
