Subject: Postdoc position in IHES

Postdoc position under my supervision at IHES starting September 2017.

Postdoctoral position in Probability and Mathematical Physics

Principal Investigator : Hugo DUMINIL-COPIN

Duration: 2 years

IHES offers a 2-year postdoctoral position in Probability and Mathematical Physics beginning September 2017

and funded by the IDEX Chair of Pr Duminil-Copin.

All candidates with background in Probability or Mathematical Physics, and interested in working on the mathematical and physical aspects of Statistical Physics and Probability Theory, are encouraged to apply.

Contract details:

The IHES scientific environment provides superb conditions for research in mathematics and theoretical

physics. The position will be covered by a competitive package funded by the IDEX chair that will include family housing in IHES residence apartments, and free access to the cafeteria for lunch. Some funding will also be available to participate in scientific events related to the project.

Applications should be sent online and include the application form duly completed, a CV, a list of publications, a description of research project and future plans as well as 2 letters of recommendation to be sent to postdoc-application@ihes.fr

Apply now

Deadline: 23 November 2016
