

Roth Studentship in Stochastic Analysis (for EU student)

Imperial college, London

The studentship is for a project in stochastic analysis, to work with Professor Xue-Mei Li starting 1st October 2017 or as soon as possible. The candidate should have a strong background in two of the following topics:

stochastic analysis and probability;
real analysis; pdes; and differential geometry.

For some idea about stochastic analysis on manifolds, please see

<http://www.xuemei.org/Homepage/Research.html>,
