Deadline for application: 17 September 2017.

The expected interview dates are 6/7 November.

The newly advertised jobs are part of a major strategic plan of the School to strengthen its expertise in Applied Probability and Financial Maths (last May we appointed 2 lecturers who are due to start in the autumn semester). The School is keen on supporting research in the area: last year it funded and hosted the conference "Stochastic Analysis of Dynamical Systems, Stochastic Control and Games"

(www.maths.leeds.ac.uk/sandsycog); in September it will host and partly fund the conference "Stochastic Control, Ambiguity and Games" followed by the research week "Stopping Games for Ambiguity-Averse

Players"

(www.ambiguity2017.leeds.ac.uk).

People representative of current research interests within the group are:

1. Georgios Aivaliotis
