

The Excellence Laboratory Milyon is a “Future Investments Program” in the Lyon—Saint-Étienne area. Milyon federates 350 researchers from three research units in

Mathematics and Fundamental Computer Science: Institut Camille Jordan, Laboratoire de l’Informatique du Parallélisme, Unité de Mathématiques Pures et Appliquées.

Milyon fosters interdisciplinary research. It also stimulates interactions between Mathematics and Computer Science and between the researchers from the three research units in three main directions:

- \* research
- \* support to innovative training programs
- \* dissemination of scientific culture.

Milyon offers scholarships for Master and 3rd year Bachelor students. Of 1,000 euros net/month/10 months, the scholarships are intended to students with outstanding academic records willing to enroll in the research programs in Mathematics and Computer Science supported by

Milyon.

The 2018 call for applications is open

Deadline for applications: January 9th, 2018

Results will be communicated around February 15th,  
2018
