

Subject: Postdoc Positions, Young Research Groups  
From: Carolin Gietz <[carolin.gietz@uni-muenster.de](mailto:carolin.gietz@uni-muenster.de)>  
Date: November 09, 2018

The Cluster of Excellence Mathematics M\unster:  
Dynamics - Geometry -  
Structure offers several Postdoctoral Positions and  
Young Research  
Groups (salary level E13 TV-L) in all fields of  
mathematics related to  
the cluster. The duration of these positions is up to 3  
years, for  
research groups up to 4 years. Expected starting date  
is no later than  
October 2019. Generally there are no teaching  
obligations but such  
opportunities are provided if desired by the candidates.  
The main  
selection criterion is scientific excellence.

For Postdoctoral Positions you apply on your own.  
Applications for  
Young Research Groups are applications from groups  
of two or three

postdoctoral researchers, who plan to collaborate intensively on research topics relevant to the cluster. Your application should contain a cover letter, your CVs (with the grade for the dissertation if applicable), a publication list and a research plan relating to the research of Mathematics Munster. Moreover, you have to choose one or two of the Research Areas as well as one or two potential local postdoctoral mentors from among the Munster based professors listed as investigators of the respective research area. Applicants who have not yet completed their PhD are requested to include a two-page outline of their dissertation project comprising results up to now. Please arrange for two letters of recommendation to be sent within the deadline to [mm.applications@uni-muenster.de](mailto:mm.applications@uni-muenster.de). The University of Munster is an equal opportunity employer and is committed to

increasing the proportion of women academics. Consequently, we actively encourage applications by women. Female candidates with equivalent qualifications and academic achievements will be preferentially considered within the framework of the legal possibilities. We also welcome applications from candidates with severe disabilities. Disabled candidates with equivalent qualifications will be preferentially considered.

If you have any questions please contact [mm.applications@uni-muenster.de](mailto:mm.applications@uni-muenster.de).

Please apply using our online application form at: [www.uni-muenster.de/MathematicsMuenster/careers/postdocs](http://www.uni-muenster.de/MathematicsMuenster/careers/postdocs)

The evaluation for the current application round will start at December 1st 2018. Later applications may also be considered.
