

**** One-year postdoctoral position at Politecnico di Torino ****

A one-year postdoctoral position for research studies in the field Mat/06 - "Probability and Statistics" is available at the Department of Mathematical Sciences of the Politecnico di Torino, with the possibility of renewal for a second year.

The research subject mentioned in the announcement is very broad, and allows the selected candidate a large choice of specific topics, according to her/his personal interests, working under the supervision of the research program's proponents (Probability and Applications, DISMA, Politecnico di Torino, https://www.disma.polito.it/en/research/research_groups/probability_and_applications).

The holder of the grant will not have mandatory teaching duties, but will have the opportunity to carry out teaching activities, if desired.

The call is open to all interested people until November 16th, 2020.

Details about the call may be found at <https://careers.polito.it/default.aspx?id=219/2020-AR>
