

Subject: Postdoc Position, M2NeT Lab, WLU, Waterloo, Canada

From: Roderick Melnik <rmelnik@wlu.ca>

Date: Fri, 1 Apr 2016 15:08:36 +0000

Applications are invited for a Postdoctoral Position in Modeling for Complex Systems, with focus on nanoscale systems and biophysical applications. The position is based at the M2NeT Lab which is part of the MS2Discovery Interdisciplinary Research Institute, located at Wilfrid Laurier University, Waterloo, Canada. Further information about the position and how to apply can be found at the following website:

<http://www.m2netlab.wlu.ca/research/2016-17-openings-m2netlab.html>

It is expected that that full consideration will be given to all applications received by May 30, 2016, but applications

will be
reviewed as they are received.

The position is available from the Fall of 2016.
