** PhD call in Modeling and Data Science at the University of Turin **

There are 6 fully funded PhD scholarships in the framework of the PhD in Modeling and Data Science at the University of Turin (Italy), coordinator Prof. Laura Sacerdote (one scholarship is reserved to the project founded by Hub Editoriale, see the list of projects below).

The scholarship is for three years, starting from 1st November 2022.

The PhD program is interdisciplinary, and it involves branches of mathematics, informatics, economics, statistics, and physics.

Website of the PhD: https://dottorato-mds.campusnet.unito.it/do/home.pl

The official language is English.

The call is now open. All interested candidates have to submit their application online:

https://www.phd.unito.it/do/home.pl/View?doc=Submitting_your_application.html

Deadline for applying is **31st May 2022, h 12:00 noon (CEST Time)**

Notice that the application requires two reference letters, which should be submitted via the same link **by the referees before the application deadline**. The referees will be able to submit their letters only after the candidate has input all the required information and closed their (part of the) application. If the letters are not submitted by the deadline the application will not be valid.

The positions are assigned to specific research projects which are discussed during the interview together with the related scientific skills. The list of the available projects - with a short description - is available at the following link (the project funded by Hub Editoriale is the last on the list)
