

## For Master's students: fully-funded PhD fellowships in France & Australia

From: AUFRANDE Helpdesk <[aufrande.help@rmit.edu.au](mailto:aufrande.help@rmit.edu.au)>

To whom it may concern,

We are approaching you as contact person for a Master's program, with some PhD opportunities that could be of interest for your Master's students. We would like to kindly ask you to help us to support the dissemination of this call within your university. The Australia-France Network of Doctoral Excellence (AUFRANDE Program), co-funded by the European Union, is offering 43 fully-funded PhD fellowships in the fields of physics, computer sciences, geosciences, environmental sciences, mathematics, mechanics, chemistry, photonics and other related disciplines.

Successful applicants will be part of a unique doctoral training program offering:

- *Excellent employment conditions at one our 22 French Institutions*
- *Up to 12 months secondments in one of the 15 Australian partner Universities*
- *Dual doctorates (France + Australia)*
- *Outstanding training aimed at fostering scientific, technical and transferable skills including workshops in both France and Australia*
- *Involvement of industry partners*

**Successful applicants are expected to start by October 2024.  
The deadline for applications is 24 January 11h59 PM CET.**
