

Docente: Stefano Trapani

Titolo: Kodaira Embedding Theorem and Riemann bilinear relations
(Advanced Topics in Geometry)

Abstract: The course will carry out the proof of the above theorems and possibly other topics to be determined. However, the course requires familiarity with the basics of Hodge theory on compact Kahlerian varieties.

Starts: 22 March 2024

Aula 29 14-16 Venerdì

Durata circa 20 ore.
