

**** 2 years Post-doc position in Florence ****

A call for a 2 years post-doc position is open at the Mathematics Department in Florence, with deadline December 8, 2021.

The title of the project is: "Statistical-mechanics techniques in Probability and Geometry".

The aim is to investigate how the statistical mechanic approach has successfully been applied to the study of problems coming from geometry (in particular complex geometry) and the interplay between the two disciplines.

You find the details of the call at the bottom of this email. Unfortunately the call is only in Italian, but please let us know if you need help in understanding it or in applying. We will be happy to help.

For any further information, please contact:

luisa.andreis@unifi.it
