

The Department of Mathematics of the Ludwig-Maximilian-University Munich (LMU) invites applications for a

Post Doctoral position (TV-L E13, 100%, 5 hours teaching)

in Stochastics with applications in Financial and Insurance Mathematics. A research background in related fields is desirable but not necessary and candidates from all areas of probability/stochastics with interest in financial mathematics are encouraged to apply.

Intended starting date for the position is 1st of April 2017 for a term of 1 year with possible extension upon successful completion of the first year.

Your application should include a letter of motivation, curriculum vitae, a list of publications, and documentation of academic degrees and certificates. Letters of recommendation are also welcome.

Any inquiries and your application should be sent electronically in pdf format at your earliest convenience to Prof. Thilo Meyer-Brandis
meyer-brandis@math.lmu.de
