Postdoc position in Luxembourg

Postdoc position in Luxembourg for March 2020 (deadline for submission of application: December 15th)
University of Luxembourg, campus Belval
(Funded by the FNR project APOGee)

Applications are invited for a postdoctoral fellowship in the field of stochastic analysis at the University of Luxembourg.
The postdoc is funded by the FNR project APOGee.

The project is about Malliavin calculus, Stein's method, and related topics, in a broad sense.
Areas of interest include stochastic analysis and its interplay with other fields of mathematics (in particular, but not exclusively, functional analysis and geometry).

The position is for 2 years (24 months), with a competitive salary and travel allowances.
The starting date is March 1st, 2020.

Applications, including a CV, a list of publications and a research statement must be sent to Ivan Nourdin (ivan.nourdin@uni.lu)
Applicants should also arrange for two letters of recommendation to be sent to the same address.
Applications will be evaluated first after **December 15th**, and then on a rolling basis until the position is filled.
Requests for further information about the position should be also sent to the same address.
