

**** Postdoc position in Luxembourg for June 2021 ****

Postdoc position in Luxembourg for June 2021 (deadline for submission of application: March 1st)

University of Luxembourg, campus Belval

Applications are invited for a postdoctoral fellowship in the field of stochastic analysis at the University of Luxembourg.

The project is about Malliavin calculus, Stein's method, and related topics, in a broad sense.

Areas of interest include stochastic analysis and its interplay with other fields of mathematics (in particular, but not exclusively, functional analysis and geometry).

The position is for 3 years (36 months).

The starting date is June 1st, 2021.

Applications, including a CV, a list of publications and a research statement must be sent to Ivan Nourdin (ivan.nourdin@uni.lu)

Applicants should also arrange for two letters of recommendation to be sent to the same address.

Applications will be evaluated first after **March 1st, and then on a rolling basis until the position is filled.**

Requests for further information about the position should be also sent to the same address.
