

The Department of Mathematics and Mechanics of the
Institute of Applied Mathematics and Systems (IIMAS)
at

the Universidad Nacional Autónoma de México (UNAM)
is looking for outstanding candidates to fill one
tenure-track position starting at the Assistant
Professor level (Investigador Asociado C de tiempo
completo

por Obra Determinada) in the general areas of
Mathematical Biology or Applied Dynamical Systems.
Special

consideration will be given to candidates whose research
emphasis is on either the area of Biomathematics
with emphasis on mathematical modelling, differential
equations and numerical simulation of biological
processes or Nonlinear analysis and dynamical systems
involving applications to Physics, Mechanics and/or
Geometry as well as the use of numerical tools.
Candidates should hold a Ph. D. degree, have
postdoctoral

experience and strong research and teaching potential.

UNAM is the leading university of Mexico and among the
strongest research institutions in Latin America. The

Department of Mathematics and Mechanics at IIMAS
performs research on Applied Mathematics and highly
regards
interdisciplinary collaborations.

For more information about the Department see [http://
mym.iimas.unam.mx/](http://mym.iimas.unam.mx/) Further information regarding
requirements and the selection procedure can be found
at <http://mym.iimas.unam.mx/position.html> and at the
MathJobs.org website at:
<https://www.mathjobs.org/jobs/jobs/11919>

Applications will be received until May 10, 2018.
