Subject: Associate Professorship Position, Applied Mathematics

From: Carolin Gietz <carolin.gietz@uni-muenster.de>

Date: August 29, 2017

University of Munster, Germany Associate Professorship (W2-Position)
for Applied Mathematics at the Department of Mathematics and Computer
Science We are looking for a dynamic and committed personality with a
strong research potential, who is able to link different fields of
applied mathematics in research and teaching. The applicant's
research should ideally combine different mathematical disciplines. Connections to the Institute for Analysis and Numerics
and/or the Institute for Mathematical Stochastics are essential.
Intra- and interdisciplinary cooperations and collaboration with
existing and planned research centres are expected, as

well as

participation in our teaching programs, including Bachelor- and

Master-courses and the respective theses. Prerequisite for the

application are scientific achievements as a junior professor, from a

postdoctoral lecturer qualification (habilitation), as a research

scientist at a school of higher education/university, non-university

institute, industry administration, or other fields of society within

or outside Germany. Applications of academically young researchers

are particularly invited.

The University of Munster is an equal opportunity employer and is

committed to increasing the proportion of women in academics.

Consequently, we actively encourage applications by women. Female

candidates with equivalent qualifications and academic achievements

will be preferentially considered within the framework of the legal
possibilities. We also welcome applications from candidates with
disabilities. Disabled candidates with equivalent qualifications will
be preferentially considered.

Applications, including CV, list of publications, research plan, and
teaching experience should be submitted electronically in a single
pdf-file until 30.09.2017 to:
