

There is an open call for post-doctoral fellowships in Brazil run by a national agency (<https://inctmatimpa.br/pos-doutorado-chamadas-abertas/pd-chamadas-abertas/>, website in Portuguese).

Deadline March 9, 2020

If you know of potential candidates who would be interested in applying for such a position, I would very much appreciate if you either let me know or ask the candidate to contact me directly. I'd be more than happy to support the application and supervise him/her.
