

**** PostDoc in Rome La Sapienza ****

A **PostDoc** position in Probability and Statistical Mechanics is open at **University of Rome Sapienza**. Research topics include interacting random walks, random loop models, spin systems, Bose-Einstein condensation. The position is funded by the German Research Foundation (DFG). The research program will be carried on under the supervision of the principal investigator Lorenzo Taggi. The research program offers the opportunity to interact with the research partners of the DFG priority program “Random Geometric Systems” and with the probability and mathematical physics communities of the three universities in Rome.

Deadline: 14th of April 2022

Net salary: approximately 2350 euro monthly

Starting period: not later than 1st of September 2022

Time length: 24 months

This is the second of two PostDoc positions which are funded through the same grant.

[How to apply](#)

For questions please send an email to the principal investigator Lorenzo Taggi: **lorenzo.taggi@uniroma1.it**.
