

** International Summer School on Risk Measurement and Control 2018 **

The 12th Edition of the International Summer School on Risk Measurement and Control will take place in Rome on 4-9 June, 2018.

Four macrothemes will be explored:

- * Green Economics and Finance
- * The Fin Tech challenge
- * Monetary Policy in a low inflation environment
- * Banking, Financial and Insurance Regulation

More information can be found on the website
