

Subject: Postdoc Positions, Mathematics of Complex Biological Systems

From: Southeast Center for Mathematics and Biology
<scmb@gatech.edu>

Date: May 31, 2018

The Southeast Center for Mathematics and Biology (SCMB) invites applications for postdoctoral scholar positions for 2018-2019.

SCMB is a newly funded NSF-Simons Research Center for Mathematics of Complex Biological Systems, with a core mission of catalyzing new cross-disciplinary collaborations between biosystems experimentalists and interdisciplinary mathematicians.

As part of that initiative, SCMB is supporting up to seven new postdoctoral positions for recent PhD's to begin either August 2018 or Jan 2019.

See <https://www.mathjobs.org/jobs/jobs/12021> for
