

## **\*\*PhD Scholarship in probability theory Strasbourg-Göttingen\*\***

A PhD scholarship in probability theory is available at University of Strasbourg, France. The studies will be comenthored by Dr. Vlada Limic (Strasbourg) and Prof.dr. Anja Sturm (Göttingen, Germany). The scholarship amount is 10800 EUR, for three consecutive years. Extra funding is planned to cover candidate's relocation costs and longterm stays in Göttingen. The research program is in probability theory, more precisely in the area of near critical random graphs and networks. Good language of English is required. Teaching duties (in French, possibly English) are optional, and they would be additionally remunerated. Strong candidates are encouraged to write directly to [limic@math.unistra.fr](mailto:limic@math.unistra.fr).
