**PhD position at Twente (UT, in the Netherlands) **

The statistics group at the University of Twente (UT, in the Netherlands) has a vacancy for a Ph.D. student to work on statistical theory for deep neural networks. A requirement is a M.Sc. degree in mathematics/statistics with solid background in probability theory and mathematical statistics.

The deadline for applications is August 15. Intended starting date for the position is in October/November this year. Additional information can be found here
