

Subject: Faculty Positions, Univ. of Warwick  
From: Christoph Ortner <[c.ortner@warwick.ac.uk](mailto:c.ortner@warwick.ac.uk)>  
Date: September 06, 2016

The department of Mathematics at the University of Warwick invites applications in (applied) mathematics at all career stages: Temporary Lecturer, Assistant Professor, Associate Professor (deadline 9 October 2016), Full Professor (deadline 16 October 2016).

There are no formal divisions between "pure" and "applied" mathematics in the Warwick Mathematics department, and so "Applied Mathematics" can be understood in a broad sense. Naturally, we expect appointees to be able to interact across disciplines within and/or outside mathematics. Areas of interest include mathematical modelling, numerical analysis and PDEs, in particular with focus on stochastic

simulation, datascience, or industrial applied mathematics.

Applicants should complete the relevant online application at
